

# COMMUNITY OF LEARNERS

## WANTED:

**Innovative thinkers to join a thriving global network of educators, learners, kids, and their stories**

### Practical, Teacher-led PD That You Will Leave with a Universe of New Lessons!

- Looking for a professional development opportunity designed by teachers, for teachers?
- Interested in re-centering student voices and stories in your classroom?
- Want a joyful, high-impact, interactive experience in a great community?

BYkids and EMA Foundation are excited to announce the **Community of Learners for summer 2024**. In this expansion of last summer's inaugural cohort, students and teachers will come together to explore how BYkids films can enrich their teaching and learning experiences across a variety of disciplines, from History to Science to English to World Languages, pairing the films with a wide variety of texts and designing innovative assessments that students and teachers have found to be both inspiring and deeply restorative. **You will leave the workshop with ready-to-go lessons and connections to a powerful network of educators, resources, and events -- all for free** thanks to EMA Foundation.

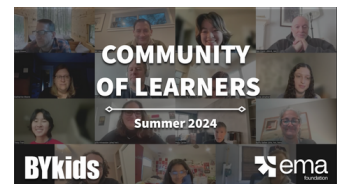

**When?** This summer -- **options in June, July, and August in person and online!**

**Cost?** Free!

**Why?** To develop pathways for integration of BYkids films into curricula and connect teachers to a thriving community network that offers unique resources, special events during the year, and deep connections!

**Where?** In-person at several high school campuses around the country as well as virtually.
